FS-2314 Black Lab

### **Brushes and other materials**

# 6562 Crafter's Choice™ Round #6 Brush

# 6566 Crafter's Choice™ Detail Brush

# 6414 Synthetic Sponge

## Instructions (Read all instructions before you begin)

### **Castle Mug**

**Step 1-** Coat inside of mug with This Li'l Piggy by either brushing on 3-4 coats or with the pour and roll method (slightly thin glaze with water, then pour into mug, rolling glaze around inside until fully coated, then allow to stand upside down for several minutes to drain out excess glaze). Allow to fully dry.

**Step 2-** Cover entire mug except for inside of doorway in Tickled Pink and let dry.

**Step 3-** Use a damp sponge to wipe off glaze, leaving color only in crevices.

**Step 4-** Apply a very light wash of Blue Ice to inside of doorway.

**Step 5-** Apply two coats of each color using the paint-by-number guide below.

**Step 6-** Clear glaze and fire to cone 06.

### **Princess Tiny Topper**

**Step 1-** Apply two coats of each color using the paint-by-number guide below.

**Step 2-** Using detail brush, apply Black Lab to Princess's eyes and mouth.

**Step 3-** Clear glaze and fire to cone 06.
