## Ingredients

### **Bisque**

# 3068 Squircle Lg. Rectangular Platter

### **Color**

FS-2314 Black Lab

FS-2365 Not Quite White

FS-2392 Rockin' Red

FS-2396 Anchors Away

### **Brushes and Other Materials**

# 6571 Aqualon™ Soft Fan Brush

# 6673 Majestic #6 Round Brush

# 6322 Fun Writer (2)

## Instructions (Read all instructions before you begin)

**Step 1-** Apply 3 coats of Black Lab to the entire platter with a Soft Fan Brush. While the third coat is still wet, apply 1-2 coats of Anchors Away using horizontal strokes beginning about 4" down from the top of the plate. Some black should still show through. As you get toward the bottom of the plate, use the #6 Round Brush to swish a small amount of Not Quite White into the wet glaze around the bottom to create a fog-like effect (refer to photo). Allow to dry.

**Step 2-** Trace the pattern onto the plate. Using the #6 Round Brush, fill in the clock tower with 1-2 coats of Black Lab. NOTE: You do not have to blacken the phone booth area.

**Step 3-** Fill a Fun Writer with Not Quite White. Using a yellow tip, begin applying dots to the top area and filling in details according to the pattern, including the moon. As you work your way toward the bottom of the tower, use the pink Fun Writer tip to apply larger dots.

**Step 4-** Using a Fun Writer filled with Rockin' Red, color in the phone booth, leaving thin outlines of Black Lab showing.

**Step 5-** Turn the platter upside down. Holding the Fun Writer filled with Not Quite White sideways, drag it down the platter vertically so that it skips, creating a scattered line representing the rain drops.

**Step 6-** Dip into clear glaze and fire to cone 06.
