3068 Squirrel Lg. Rectangular Platter

Color

FS-2301 Smiley Face

FS-2314 Black Lab

FS-2365 Not Quite White

FS-2396 Anchors Away

Brushes and Other Materials

6571 Aqualon™ Soft Fan Brush

6673 Majestic #6 Round Brush

6322 Fun Writer (2)

Instructions (Read all instructions before you begin)

Step 1- Apply 3 coats of Black Lab to the entire platter with a Soft Fan Brush. While the third coat is still wet, apply 1-2 coats of Anchors Away using horizontal strokes beginning about 4" down from the top of the plate. Some black should still show through. As you get toward the bottom of the plate, use the #6 Round Brush to swish a small amount of Not Quite White into the wet glaze around the bottom to create a fog-like effect (refer to photo).

Step 2- Trace the pattern onto the plate. Using the #6 Round Brush, fill in all of the buildings with 1-2 coats of Black Lab. NOTE: You do not have to go to the very top of the two tallest buildings.

Step 3- Fill a Fun Writer with Not Quite White. Using a yellow tip, begin applying dots to the top area and filling in details according to the pattern. As you work your way toward the bottom of the buildings, use the pink Fun Writer tip to apply larger dots.

Step 4- Using a Fun Writer filled with Smiley Face, color in the taxi cab, leaving thin outlines of Black Lab showing.

Step 5- Turn the platter upside down. Holding the Fun Writer filled with Not Quite White sideways, drag it down the platter vertically so that it skips, creating a scattered line representing the rain drops.

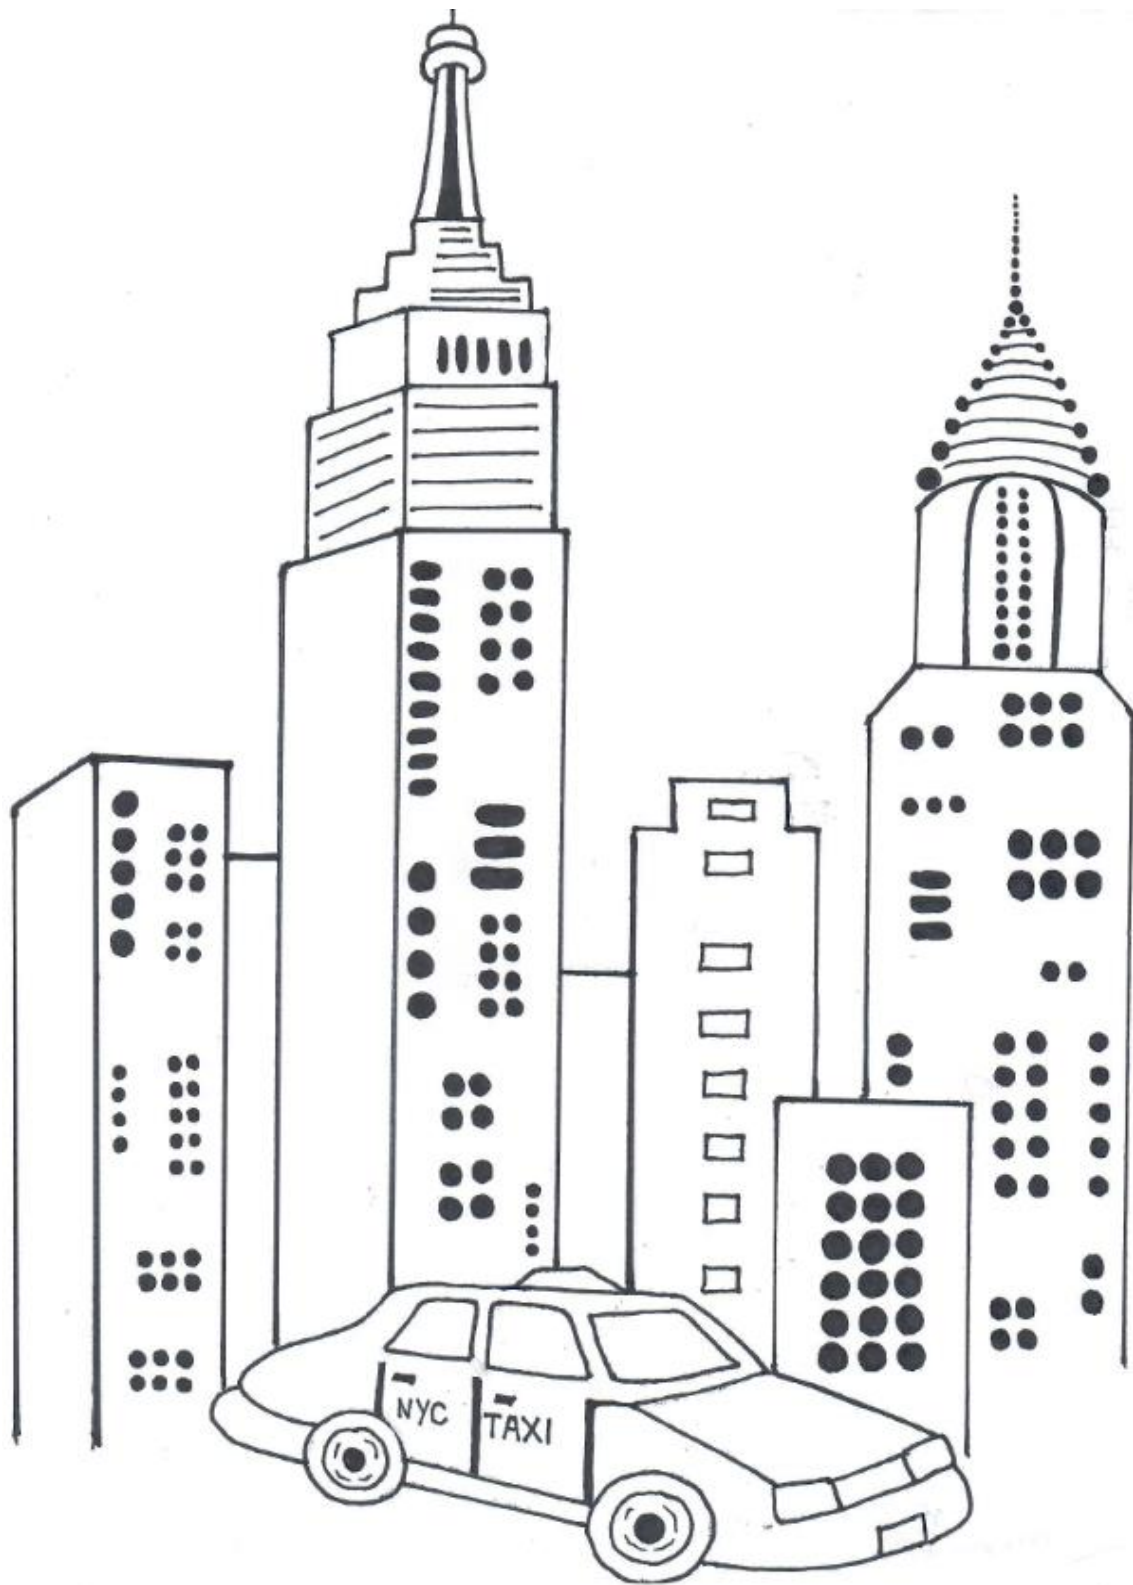

Step 6- Dip into clear glaze and fire to cone 06.
